4. Rationale for amalgamation/ merger: The Scheme will help in achieving cost effectiveness, operational and management including streamlined group structure by reducing the number of entities, reducing the multiplicity of legal and regulatory compliances, rationalizing costs, it is intended that transferor companies be amalgamated with the Transferee Company.

The independent operations of the Transferor Companies and Transferee Company leads to incurrence of significant costs and the amalgamation would enable economies of scale by attaining critical mass and achieving cost saving. The amalgamation will thus eliminate a multi layer structure and reduce managerial overlaps, which are necessarily involved in running multiple entities and also prevent cost duplication that can erode financial efficiencies of a holding structure and the resultant operation would be substantially cost-efficient.

The amalgamation will contribute in furthering and fulfilling the objectives and business strategies of all the companies thereby accelerating growth, expansion and development of the respective businesses through the Transferee Company. The amalgamation will thus enable further expansion of the Transferee Company and provide a strong and focus base to undertake the business more advantageously. Further, this arrangement would bring concentrated management focus, integration, streamlining of the management structure, seamless implementation of policy changes and shall also help enhance the efficiency and control of the Transferor Companies and Transferee Company.

5. In case of cash consideration — amount or otherwise share exchange ratio: There is no cash consideration involved. Further in terms of sub—paragraph (ii) of paragraph 4(d) of SEBI Circular No. CFD/DIL3/CIR/2017/21 dated 10th March, 2017, in case a wholly-owned subsidiary is merged with its parent listed entity, where the shareholders and the shareholding pattern of the parent listed company remains the same, it will be treated as 'no change in shareholding pattern'.
